“I was out of the office and digitally took a statement, electronically sent it to my secretary and within 20 minutes the letter was sent to my client.”

Darren McGuinness, Director
Harold Stock & Co. Solicitors

Digital Dictation with SpeechExec Enterprise

- Increased security with encrypted recordings
- Prioritisation of urgent jobs
- Optimal sound quality and NO more tapes
- Automatically sends dictations to transcription team
- See/generate work lists for transcription teams
- Simplified recording archiving

How SpeechExec Enterprise Benefits Your Practice

- Increased productivity and reduced costs
- Unified transcription process across multiple offices
- All data securely encrypted at source
- Workflow management across all transcription resources
- All data securely archived for compliance

“SpeechExec Enterprise has also allowed me to manage the workflow of secretaries, so it doesn’t matter if they are in different offices, three secretaries can all work on the same case all at once.”

Alex Newman, Practice Manager
Harold Stock & Co. Solicitors

The Advantages of Digital Transcription
